# Ancestry Exploration

We offer highly customized travel services to assist your clients with visiting family villages and meeting with expert genealogists to delve deeper into their family heritage journey. Travelers experience the joy of discovering where they come from and with whom they share a common ancient past.

GENEALOGY | MUSEUMS | HERITAGE | HISTORICAL SITES | LOCAL VILLAGES

Many people trace their family histories back to Ireland and Scotland. In Ireland, major highlights for ancestry travelers are visiting the Irish Emigration Museum in Dublin, a spectacular showcase of Irish history through the ages, and meeting with in-house historians at the Irish Family History Museum. Here, unearthing lost stories from a family's past is a real possibility.

On their authentic journeys, your clients will be able to combine history with genealogy. They will see the local color, scenic and historical sites, and learn about the changes over the centuries. They may visit local museums and galleries to see artifacts from the period relevant to their family history. Ancestry travelers may find themselves in a village where the way of life has barely changed over the centuries or one with a recreated demonstration of the ways of life in the days of yore.

*Connection. To a place. To its people. To the culture.*

*My family and I had an unbelievable time in Ireland! What we thought was going to be just a fun ancestry trip, turned out to be a life-changing experience. After sharing some of our known family history with Amanda, she came up with an itinerary that surpassed our expectations. In Dublin, she coordinated a meeting with the staff at the research library in Trinity College, where our ancestors studied medicine. We were able to look over records dating back to when our ancestors were enrolled. She did so much research for us that we actually ended up meeting a distant cousin we had no idea about! Thank you Amanda for making our ancestry search one we will never forget!*
